

# INVISIBLE THREAT

A fast-paced powerful documentary on vaccines.

**Wednesday, April 30**

**5:30 p.m. to 7:30 p.m.**

Center for Molecular Medicine, Room 111  
University of Nevada, Reno  
1664 N. Virginia Street  
(North End of UNR Campus)

**FREE!**

About the Program: Vaccine-preventable outbreaks including measles, mumps and whooping cough are happening in cities across the country. *Invisible Threat* is a fast-paced, powerful documentary on vaccines, providing a unique and engaging perspective created by high school teens. An expert panel discussion of local health care professionals will immediately follow the film.

Students, parents, physicians, public health professionals and anyone wanting to learn about the evolution of the vaccine debate is welcome to attend at no cost.

Space is limited! Reserve your ticket today at:
